Essential Features

Smart Inverter Compressor

By harnessing the power and precision of inverter technology, LG's Smart Inverter Compressor controls the temperature of your refrigerator evenly, allowing your food to taste fresher, longer. These compressors are also backed by 10 Year Warranty, providing peace of mind and dependable performance for years to come.

Door Cooling+

LG took its Smart Cooling system one step further by adding Door Cooling+. This unique technology only found on LG refrigerators provides a steady supply of cold air to the front of the fridge compartment. This keeps door contents at peak freshness and can help extend the life of produce by up to twice the life.

Essential Features

Inverter DirectDrive™ Motor

LG's simplified and efficient motor has few moving parts, offering quiet, reliable performance that is energy-efficient, durable and backed by a 10-year limited warranty. These motors are also backed by 10 Year Warranty, providing peace of mind and dependable performance for years to come.

Leak Protection Base

Every LG Dishwasher comes equipped with a fully enclosed leak protection base. If a malfunction were to occur, this base would catch any possible leaks and funnel it to a sensor that immediately turns off the dishwasher preventing any water from damaging the home. There's even a hatch built into the design of the base that allows access to functional parts, making servicing easy for technicians. (picture shows the base with the access panel removed)

Essential Features

4-Way™ Agitator

LG's redesign of the traditional Agitator provides 4 Way cleaning, from the bottom to the top and side to side. The wider wing with its high incline creates fast & powerful currents that circulates laundry further, achieving amazing wash performance results. When tested by Consumer Reports laboratories against its competitors, the 4-Way™ Agitator achieves the industries best washing performance within the agitator top load category.

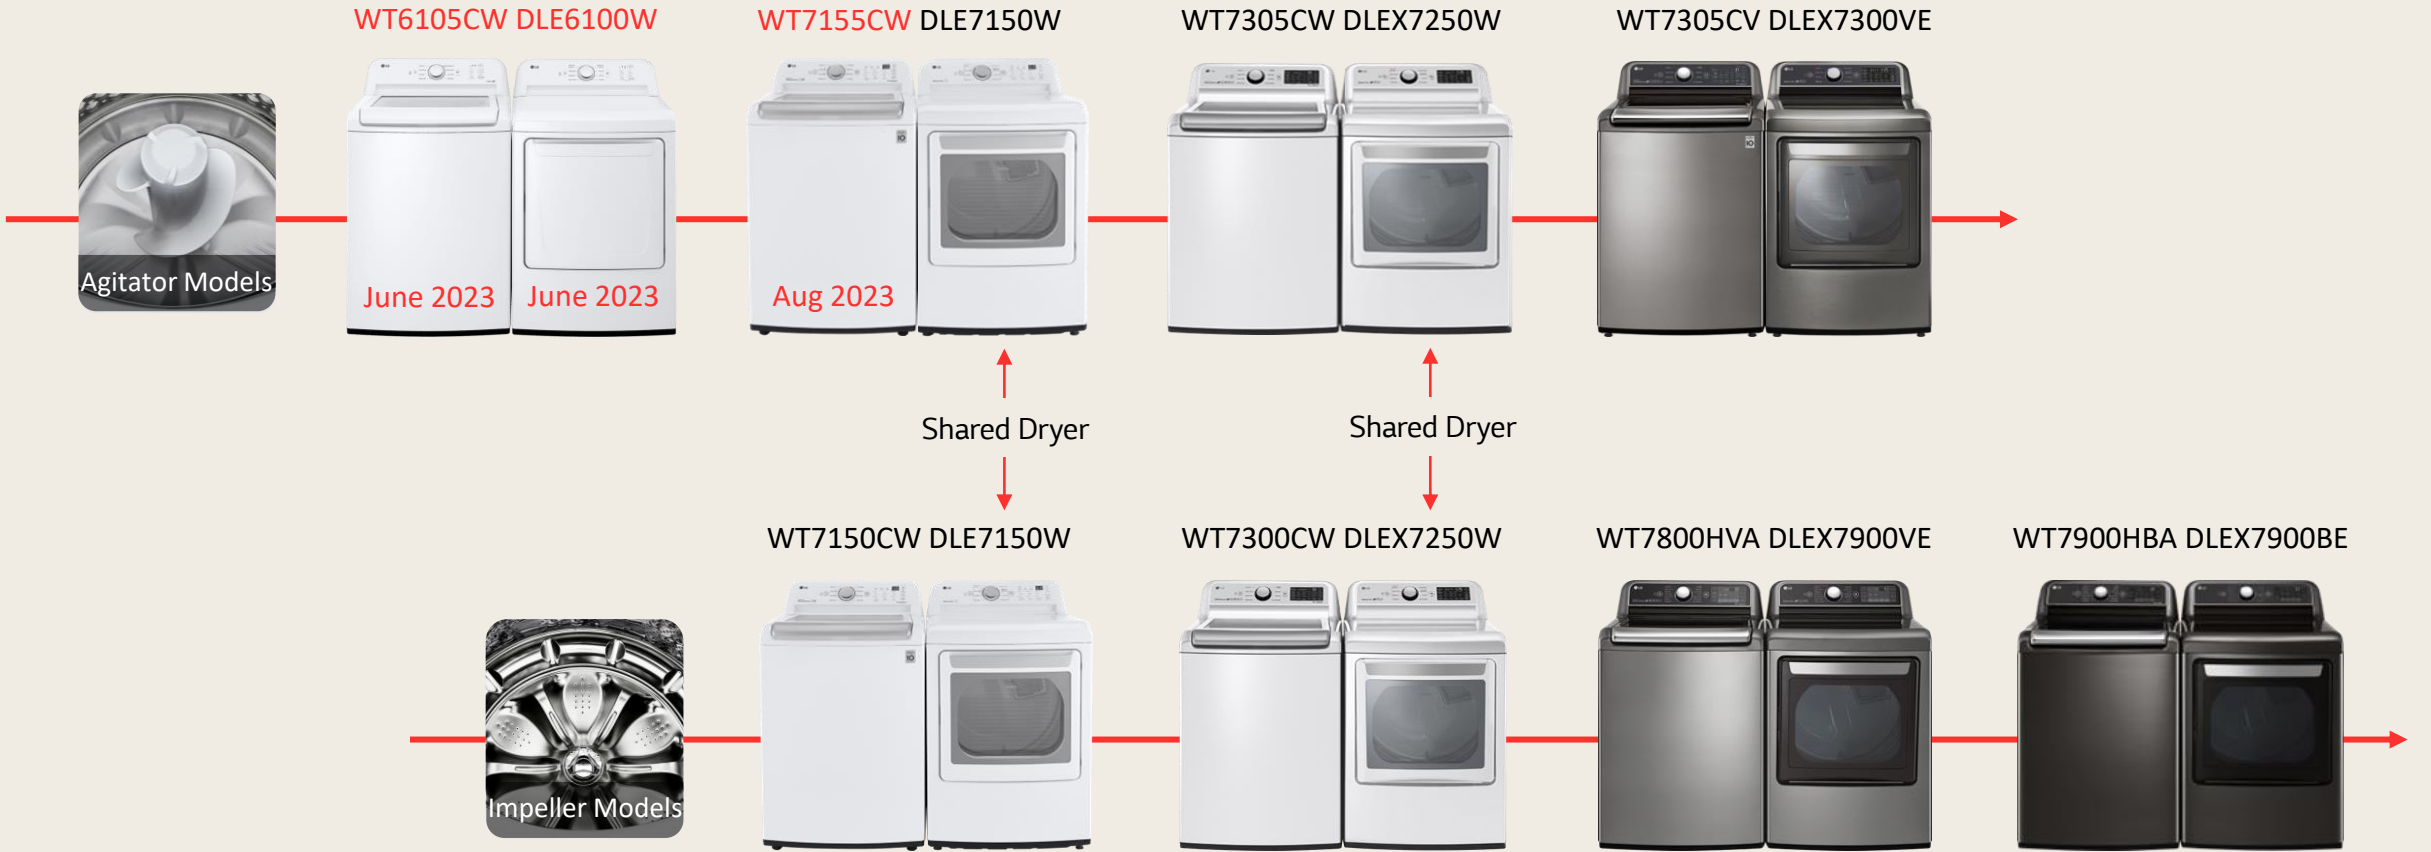

Inverter DirectDrive™ Motor

Less Vibration, Less Noise, industry leading performance. LG's legendary Inverter Direct Drive motors enhance washing and durability without the noise and vibration. Powered by inverter technology, they're able to create 6 unique wash motions. This ensures not only powerful cleaning performance, but also gentle care for all your fabrics. They are also very efficient and reliable, being backed by a ten year part warranty.

Top Load Laundry

Top Load Display Flexibility

The shared dryer approach gives you multiple ways of setting up a display floor – Maximizing your sell through based on your store's needs.

- Option **#1** – Two full laundry pairs (4 pieces)
- Option **#2** – Both washing machines and one shared dryer (3 pieces)
- Option **#3** – Both washing machines with no dryer (2 pieces)

Leak Protection Base

ThinQ® WiFi Technology

Previous Model LSDTS9908S

Premium Features

QuadWash™ Pro with microbubble technology

Tackle post-dinner cleanup like a pro with the enhanced cleaning power of QuadWash® Pro. High-pressure jets with 38% more cleaning power*, spray dishes from multiple angles, while soaking them with over one million of microbubbles to help break down stubborn food residue and provide exceptional cleaning performance. *As compared to our standard QuadWash®

Dynamic Heat Dry™

Our Dynamic Heat Dry™ technology circulates hot air throughout the dishwasher for faster, more complete drying*, delivering sparkling, table-ready dishes right off the rack—including hard-to-dry plastics. Another added benefit of this design is that it is safe for all contents of the dishwasher because the heat element is hidden below the tub.

TrueSteam® Technology

LG TrueSteam® uses the power of steam to penetrate food residue and help eliminate water spots by up to 60%. Plus, LG dishwashers are certified by the National Sanitation Foundation to reduce bacteria on dishes by 99.999% and reach a final rinse temperature greater than 66°C (150°F) when operated on the Steam cycle for peace of mind.
