Essence

LG Studio's new line of White Essence appliances embodies a revolutionary approach to home aesthetics and functionality. Rooted in the fusion of cutting-edge technology and minimalist design, the White Essence collection redefines the modern kitchen experience. Inspired by the purity and simplicity of white, these appliances seamlessly integrate into any contemporary space, creating an environment that elevates both form and function. The appliances boast state-of-the-art features, ensuring optimal performance while maintaining a sleek and unobtrusive appearance. From the kitchen to the laundry room, each White Essence appliance is crafted with meticulous attention to detail, embodying LG Studio's commitment to innovation and elegance in the heart of the home.

LG Induction Cooktops & Ranges, First in Industry Certified to New Energy Star Specs

As ENERGY STAR Partner of the Year, we are proud to usher in the new ENERGY STAR cooking category, which will help consumers further reduce their carbon footprint. ENERGY STAR certified induction cooking products are key elements of our broader electrification strategy, which empowers customers to convert buildings to conserve energy, saving money and protecting the environment in the process.

CBIS3618B

#1 Rated 36" Induction Cooktop

Detailed CR Test Results

High heat: This model had Excellent performance in our test of how quickly the highest-powered burner or element heated a large pot of water to a near boil.

Low heat: This model had Excellent performance in our test of how well the lowest-powered element or burner kept a low temperature as for melting chocolate and how well the highest element or burner, set on low, held tomato sauce below a boil.

Studio Induction Cooktop

Key Features

UltraHeat™ Elements

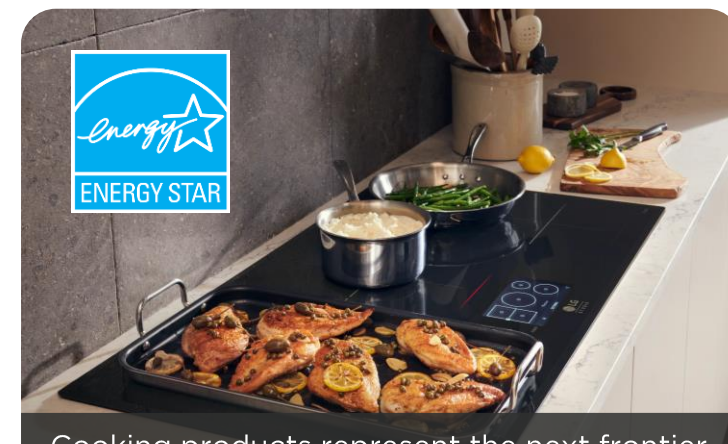

Wielding either 5000 or 6000 Watts of power, Studio's induction cooktops offer powerful cooking performance that can boil water quickly and efficiently.

7" LCD Touchscreen

A few simple touches activate your cooktop for quick operation without confusion on an impressive LCD touch display. The look is sleek and contemporary - and it's even easy to clean.

Energy Star® Certification

Cooking products represent the next frontier for residential energy efficiency and LG is the first manufacturer in the industry to receive certification of new energy star specification requirements.

ezDispense™

Automatically dispenses the right amount of detergent and fabric softener, skipping refills for up to 18 to 31 loads.

Reservoir #2

Reservoir #1

Compartiment with various options:

- a) Softener (up to 18 loads)
- b) Additional standard detergent (upping the soap capacity to 31 loads)
- c) Secondary different detergent (also expanding soap capacity up to 31 loads.)

Designed specially to use only HE (High Efficiency) detergent
Conçu exclusivement pour les détergents HE (Haute Efficacité)
Diseñada especialmente para utilizar solamente detergente HE (Alta Eficiencia)

Compartment housing your every day standard detergent. Holds up to 18 loads of liquid soap.

Studio WashTower™

Key Features

AI Wash

The image shows a close-up of the AI Wash control panel on a washing machine. The panel is dark with white text. At the top, it says "AI Wash" and "Optimizes cycle based on contents of laundry". Below this, there are three columns of settings: "Temp. Warm", "Spin High", and "Soil Medium". On the left, there is a "WASH/DRY" button with a circular arrow icon, and on the right, there is a "SETTINGS" button with a gear icon.

Built-in sensors use AI technology to detect fabric texture, soil level, & load size, then customize wash/dry motions and temps.

ezDispense™

The image shows a person's hands pouring detergent from a white jug into the ezDispense detergent dispenser. The dispenser is a blue and black tray that is partially open, and the detergent is being poured into a compartment. The background is a blurred view of the washing machine's interior.

LG ezDispense® auto dispenses the right amount of detergent & fabric softener-skipping refills for up to 18 cycles.

TurboWash™ 360°

The image shows the interior of a washing machine drum with five powerful jets of water spraying out from the top. The text "5 Powerful Jets" is overlaid on the image. In the top right corner, there is a "CERTIFIED Allergiene" logo.

Top-of-the-line innovations—TurboWash™ 360°, Allergiene™ wash cycle technology deliver our advanced cleaning performance

Washer

Dryer

AI Sensor Dry

The image shows the interior of a dryer drum with a stack of folded towels. The text "AI Sensor Dry" is overlaid on the image.

Built-in sensors & AI detect fabrics, load size, and moisture to automatically adjust drying time – improving fabric care and energy savings.

TurboSteam®

The image shows the interior of a dryer drum with a white garment. The text "TurboSteam" is overlaid on the image.

LG's built-in steam generator allows you to reduce wrinkles and refresh clothes, toys and more in just 10 minutes.

Smart Pairing™

The image shows a woman loading laundry into a dryer. The text "Smart Pairing" is overlaid on the image. In the top right corner, there is a "Smart Pairing" logo with two icons labeled "Bedding".

For the ultimate laundry hack

Smart Pairing™ lets the washer “talk” to the dryer to pick a compatible cycle based on the washing machines cycle information.

CRAFTED *for* Better Care
